#### POST OFFICE HOURS.

#### ROAST BEEF.

Roasted meats are rarely mot at American tables. It is true that there s a dish called roast beef; but it is not roasted. On the contrary, the meat is placed in an oven and baked. To those who have tasted beef prepared by both methods, it is not necessary to say any thing. To those who have al-ways eaten baked beef, we recommend that they should purchase one of the tin roasters that sit in front of the fire, and they will find that properly-roasted meat is a very different thing from that which is bak 1, both as regards its flayor and digestibility .

In roasting, the same result 's to ittained as in boiling, viz., tan formation of an exterior coating which shall prevent the escape of the flavorous portions, and the cooking of the interior without making it tough. Meat should neither be raw nor dried up; for in the latter case, it becomes indigestible. The proper method of reasting is first to place the meat near the fire, to coagulate the exterior, and form the impermeable crust; when this is accomplished, it should be removed to a distance, and the cooking finished slowly at a lower temperature.

The effect of reasting thus conducted is to increase the properties of the osmazome, thereby rendering the meat more gratifying to the palate. At the ame time, the judicious application of the heat has cooked the mass with an making it tough, and since the meat s suspended, the fat, as it melts. flowoff and does not soak into it. In baking, the application of the heat is memeasure extracted; the confined vapoof the oven injure the flavor; the joint ests in a bath of melted grease, the temperature of which is not high enough to prevent its soaking into the neat, and the fat that melts on the top of the mass is absorbed and seriously impairs the digestibility of the lean portions .- Dr. John C. Draper.

OLD DANTOWN.

Macon County Bourbon Mill.

THE PLACE TO GET STRAIGHT DRINKS.

Sitting in its quietude on the banks of Priends Creek pear the eastern border of our county is the hamlet of Dantown, while from the opposite side of that friendly stream Newburg looks over at its neighbor, half a mile away. On the road between, stands a wooden church that is the bond of union. There, those religiously inclined mingle their prayers together, and the Newburg lad makes eyes at the Dantown lass just the same as in the most aristocratic circles of Bagdad. None of those petty jealousies that often take possession of the people of rival cities, affect the neighboring towns. There the Methodists turn out when the Baptists preach, and the blacksmith turns from his smoking anvil to give singers apostolic knocks from the pulpit.

Once in the history of the courty. Dantown bore a very hard name, and when the object of bate or malice was sent to any place, it was not to -but Dantown.

But it was not of its religious aspect that we propose to treat, but rather of its manufacturing interests. Slumber ing silently in their thrones of brick and mertar in the old Dantown mill for the past cleven years, have reposed three copper queens of the still, small and plump, but ready at the word to change the nutritious corn and 1ye into that famous American beverage, bourbon whisky. There was a time when these queen sisters ruled over an extensive realm of drinkers in this county, and "()ld Dantown Whisky," was all the beverage that could pass the lips of our aristocratic citizens. Samples of it could be found in their cellars, and when the favorite guest was specially honored with a Jacksonian treat, it was Dantown whisky that flowed

But revenue laws, and complex regulations intervened for a long time to stop the flow of Dantown bourbon, and the hum of the saw mill and whiir of the grist mill took the place of the still. Then, too, the dishonest ran crooked, and bourbon was cheap. So there was no chance in Dantown-hard 'old Dintown-quiet modern Dantown atting by the streum.

But these dreatery days of listless ness were not always to last. At length the strong arm of justice was laid upon the "ercoked," and hope once more ghiddened the business circles of Dantown. Virgil D. Ross, a genuine Kon- health of his wife. The little boy is about six years of age, and says his name is Charlie Skees, his father having brought him from a place called C'acinnati. He always weeps when left in the dark, and throws his arms over his eyes when approuched. The child looks as though he had been subjected to rough usage. A Daily Star reporter has left here for the locality to make a complete investigation of the matter, The supposition is that it is the identical Charlie Ross, and the people in that neighborhood are wild with excitoment. The inhabitants seem to be more strongly confirmed in their belief when they take into consideration the time he was left, and the locality in which he was placed, it being a rather sparsely settled country. ST. Louis, February 1."-Upon the opening of the United States Circuit Court, this morning, the attorney for the Western Union telegraph company, writ of subpoena, duces tecum, from the government, upon Wm. Orton, president of the company, requiring him to produce all the telegrams which passed between Gen. Orville Babcock, at Long Branch, and John McDonald, John A. Joyce or Mrs. Joyce, at St. Louis, or at Ripon, Wisconsin, over various signatures, during several months of last year. The telegraph company set up an answer, that the an swer was too general and would require an immense amount of labor. Any intention to impede the trial was disclaimed, but it was asked that dates and description of messages be given with particularity. The point was argued during the morning and taken upder advisement until afternoon.

On the re-assembling of court, this afternoon, Judge Dillon over-ruled tha motion on the part of the Western Union telegraph company, to set aside the subma, dices tecum. Mr. Voorhees then stated that, after consulting with government, it had been agreed that the government would withdraw the sixth count against his client, Maguire, charging him with conspiracy to defraud the government, and that defendant would enter a plea of guilty as to the remaining five counts, charging him with neglect of duty in not reporting to his superior officer, the supervisor of the district, cortain irregularities of distillers. He then argued that his client was innocent of intentional misconduct, but being a stranger to the duties of his position, he met great difficulties and was controlled by strong influences brought to bear on him. Hq Attorney Dyer concurred in these ideas THE Mennonites in Manitobs have and said the government accepted the

Boston, Feb. 1.-A special from East Lyndon, Vt., states that Silas Winder, a resident of that town, killed his father and mother this morning, with an axe, and then cut his wife's throat. He then hung himself. His wife was alive at latest date.

NEWPORT, VT. Feb. 1.-There is terrible excitement at East Lyndon over the tragedy there to-day. It is supposed that Wilder was laboring under temporary insanity, superinduced by excessive excitement and passion. His father and mother were aged respectively 73 and 70 years. The immediate cause of the affair was an altercation with his wife, who in altering a pair of overalls, had made them too short. After some angry words, Wilder started for the shed, saying he would get an axe and end the trouble. His wife followed him and seized the axe, when he drew a dirk, stabbed her and left her for dead, and then taking up the axe, started for his father, who had followed him, and struck him a

NEW YORK, Feb. 1.- The shocking marder of Simmons, in Brooklyn, Thursday night, is made more revolting, if possible, by the discovery of the missing portions of the body in the swamps on the outskirts of that city, where they were placed by the murder-er Kretze, and by him pointed out yesterday to the police authorities.

MUNICIPAL CROOKEDNESS.

The city of Springfield is in trouble, its prodigality and recklessaus, and succeeded in arousing the indigration Dry Goods. of the citizens to such an extent us to produce a pleatiful crop of injunctio: which the debt mill could be stopped The consequence is the mayor finds histself without funds and has there fore discharged the police and firemen for want of money to pay them. Last night the city was without protection of any kind, either from thisves or incendiaries, and, as the Mayor had note fied the gas company that the city would not be responsible for any more ges bills, the streets were dark, too. The people are much troubled, and talk of appointing a committee of public safety, as a last resort, the authorities having practically abdicated their ofices. #### PUBLIC LECTURES.

We have heard several suggest the propriety of having one or more literary ectures delivered in our city this winter, under the auspices of the Public Library management. It is thought Crown, John that a popular lecturer would draw Ertel & Co, Goo enough to afford some revenue to the institution, and at the same time fur-Hand, Sophia nish instructive entertainment to our Kenkle, Mrs H B people. We are idecidedly in favor of Livingston, Clara people. We are idecidedly in favor of such a move, and fully believe that a hundred dollars might be made for the Library from each lecture delivered, Voight, Prof. provided the right men could be proprovided the right men could be procured to lecture. John B. Gough, Wendell Phillips, and several others that we might name, would crowd the opera house full, at fifty cents for the gallery and seventy-five cents for the lower part of the house. The best lecturers in the country can be had at from one to two hundred dollars, which with the rent of the hall, is about all the expense that need be incurred. We hope the matter will be agitated at once, and if the best speakers have engagements ahead for afew weeks, we can wait until the lecture season is over, and secure their services in the early spring, when they will have more leisure. Again we say let the question be agitated, and if the managers of the Library do not think it safe to incur the risk of engaging a lecturer for fear of not realizing enough to pay expenses, let a canvass be made for the sale of tickets in advance, and there will be no difficulty in disposing of enough to pay the lecturer, provided the right man is secured.

Money or a Fight.—A Maroa man, to whom the Midland Railroad Company owed some money,came down yesterday to get his pay, remarking when he left home that he would have his money or a fight. He got his money and treated himself freely to "tangle leg," under the influence of which he got into a muss with somebody and was pretty well pounded, going home with his face and head badly bruised and swollen. So it on, for 25 cents. Blankets worth five would seem that he got his money and a fight thrown in. The story he tells is that the brakemen pitched into him and gave him a drubbing on account of some remark he made which was not verv complimentary to the concern. A REMARKABLE CURE OF CON-SUMPTION IN CHICAGO.

[From Chicago Tribune, Jan. 0, 1876.] Testimonial of Hon. Jos. E. Gary, Judge of the Superior Court of Cook county.

CHICAGO, ILL., Dec. 14, 1875.

DR. S. D. Hown—Dear Sir: Permit me to add my grateful testimony to the army of witnesses to the virtues of your iny of witnesses to the virtues of your justly celebrated Arabian remedies. For a long time my wife was seriously af-flicted with hacking cough, oppressed breathing, soreness of the chest, and constant acute pain in the lower portion of the right lung and under both shoulder blades. Her sufferings were intense, and she became extremely nervous and prostrated. Her disease was pronounced consumption by the physicians of Chicago and other cities, whose prescriptions had been taken without benefit.—When you visited Chicago, June, 1873, Mr. James Fowler left yesterday for Lawrenceburg, Indiana, to visit his brother and sister whom he has not seen for twenty years. Mr. Fowler expects to be gone about a month.

C. B. Bostwick, Esq., of the Mattoon Gazette, was in town yesterday, and paid us a call.

Chas. L. Griswold and family started vesterday for New York, to visit their manifest—the cough loosened and soon yesterday for New York, to visit their old home at Albion, Orleans county.—
They will be absent about for weeks, and the tedium of their visit will be enless than the cough loosened and soon ceased, respiration became easy, the soreness of the chest was relieved and all pain removed; she begain to gain in flesh and improve in strength and apfiesh and improve in strength and appearance. I fully believe that your medicines and skillful advice have saved the life of my wife. She unites with me in this grateful tribute to the merit of your remedies.

Very respectfully yours,

JOSEPH E. GARK.

The above testimonial is entirely voluntary, and certainly speaks well for Dr. Howe's Arabian medicines, and is only one amongst thousands received from all parts of the United States .--Consumptives and all who may be suf low figures, just received at B. STINE's fering from weak lungs should try the Milk Cure.

From the Springfield Journal.

Dr. S. D. Howe, the great Consumption Doctor, of New York City, has arrived in this city. He is the proprietor of the celebrated Arabian Remedies, and of the celebrated Arabian Remedies, and comes armed with some very fine testimonials, one of which, from Judge Gary, of the Superior court of Cook county, we have been permitted to copy, and it will be found in another rolumn of this issue. Dr. Howe is a regularly educated physician, and for thirty years has made diseases of the throat, chest and lungs a specialty. During these years he examined over thirty thousand consumptives. This gives him great advantage over the average physician. He does not make a practice of travelling but recently visited Chicago by request, and giving one week's reception there, Pike, the Jeweier, keeps the best Spectacles in the city, and sells them at a reasonable price. cured by its use. Nothing can restore

the hair where the follicles are de-

stroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimu-lated into activity, so that a new

growth of hair is produced. Instead

of fouling the hair with a pasty sedi-

from turning gray or falling off, and

scalp arrests and prevents the forma-tion of dandruff, which is often so un-

cleanly and offensive. Free from those

CHICAGO TRIBUNE! To all principal points FOR 1876. WEST The "Old Reliable" and Popular

A great Presidential Campaign will soon commence. That struggle will determine whether the Government of the United States shall continue to be administered by the party which preserved it from dismensional to be the property of the transfer of the United States shall continue to be administered by the party which preserved it from dismensional transfer or the transfer of the men who endeavored to destroy or refused to he pasve it, in order that Slavery might be maintained.

Those who desire the Republican party to remain in power caunot more efficiently contribute to that end than by increasing the circulation of The Cracago Tribune in their neighborhoods. Among the leading Republican newspapers none tukes a higher mank or will wield a more potential influence in the next Presidential Campaign—Every intelligent citizen will find it indispensable for the facts and arguments it will contain.

On the leading measures before the public The CHICAGO TRIBUNE's PLATFORM.

On the leading measures before the public The CHICAGO TRIBUNE holds the following views, believing them to be right as well as Republican:

1. A Reference of the Currency, making it Shortest and Quickest Route

Republished:

1. A Referm of the Currency, making it is stable and good as gold and silver, without injury to the debtor classes.

2. Reduction of direct State, and indirect

2. Recomption of affects state, and indirect National Taxation.? 3. Economy and Retrenchment in Public Expenditures; no Bounties or Subsidies of Public Moneys for Frivate Schemes, or Pay-ment of Rebel Losses out of the National Treasury. Preasury.

4. An honest maintenance of Public Credit, and Condemnation of Repudiation

to any forth or shape.

5. State Control and Supervision over Common Carriers and Corporate Monopoolies, not to oppress them, but to protect the pacetie. Common Carriers and Corporate Monopoolies, not to oppress them, but to protect the people.

6. Exposure and Punishment of all Official Corruption and Frauds on the Revenue.

"Let no guilty man escape."

7. Honeat and Fit Men for all offices—giving good Unionists preference over former Secessionists.

8. Sovereignty of the Union in all National matters; State Rights and Independence in all Local Matters.

9. Election of President by direct vote of the People, without the clumsy and danger-one intervention of Electoral Colleges, which may some day cause a Civil War.

10. A Constitutional Amendment prohibiting a division of the Public School Funds of any State for Sectarian Purposes.

The Political Department is but one of the many features of the The Terribus, on which is based its claims as a superior.

As a newspaper it has few equals in the United States. Its Home and Foreign Correspondence, Litenary and Miscelianeous Departments, are exceedingly fich, instructive, and entertaining, and the Agricultural Department, eminently practical, contains matter always seasonable, and suited to direct amplication to the active operations of the Farmer. In thell'eld Departmentant as to the diseases and care of live stock, this contributed by a Veierlnary Surgeon of skill and experience, who will answer all questions asked by correspondents.
